

Comprehensive, National Collection Services

Offering more locations, more testing options, and greater convenience

**Convenient
urine, saliva
and hair
specimen
collection**

**Instant, on-site
urine and saliva
testing for
drugs of abuse**

As the nation's leading provider of drug and alcohol testing services, Quest Diagnostics is dedicated to providing you with easy access and comprehensive specimen collection.

More than 7,000 Collections Sites for Even Greater Access

Our extensive network of collection sites ensures that a full-service site is easily accessible, offering collection for both lab-based and instant testing.

- 900 Quest Diagnostics-owned Patient Service Centers for urine collection
- 7,000 third party non-DOT sites for urine collection
- 4,000 DOT compliant third party urine collection sites
- 2,500 third party Breath Alcohol Test (BAT) collection sites
- 3,200 hair collection sites
- International collection sites, including 200 Canadian sites
- Saliva instant alcohol collection sites
- Urine instant drug test collection sites

Or if you prefer, collection can be performed on-site at the location(s) of your choice.

Fast and Easy Access for Your Employees

- Extensive network of collection sites located near public transportation for enhanced convenience
- Trucker-friendly collection sites located near major highways with tractor-trailer parking
- Extended hours of operation

For help finding the nearest collection site, use our collection site locator, available 24/7 at www.questdiagnostics.com or call toll-free 800-877-7484.

Greater Access. More Choices.

Multiple Specimen Collection and Testing Options

Quest Diagnostics specimen collection site network gives you the flexibility to collect and test all types of specimens for both lab-based and instant testing.

Urine

- drugs of abuse; instant testing available
- alcohol

Hair

- drugs of abuse

Saliva

- drugs of abuse; instant testing available
- alcohol; instant testing only

Breath (breathalyzer)

- alcohol; instant testing only

On-site (workplace) collection for urine, hair and breath alcohol testing is also available.

Enhanced Collection Service Features

Quest Diagnostics offers additional, specialized collection options to further support your company's needs:

- National network of collection sites located close to public transportation, hospitals, or other venues for enhanced convenience
- Mobile, on-site (at the worksite) breath and urine collections and testing
- Nationwide 24-hour mobile, post-accident or reasonable cause collection network
- Observed specimen collection available
- DOT and non-DOT physicals
- Quality control of third party sites with all comments logged, scorecards kept and annual pricing agreements generated by service type
- Reference standards for both the collection sites and client personnel on operational issues based on the substance abuse program

DOT-compliant collection sites

Pre-employment physical exams
